Executive Summary

In 2024, Southern Tier Central Regional Planning and Development Board (STCRPDB) partnered with the Town of Corning to submit a community planning grant application to the New York State Office of Community Renewal. In November 2024, the Town of Corning was awarded \$47,500 in Community Development Block Grant (CDBG) funds to develop a housing needs assessment for the Town. STCRPDB was named as a subrecipient of the grant to assist the Town with implementing the project.

A housing needs assessment gathers information about the state of housing in the Town, formulates recommendations for policies and actions to improve housing within the Town, and provides the basis for the Town to apply for a future grant to receive funds to assist low-to-moderate income homeowners in the Town with housing rehabilitation, septic and well replacement, and/or mobile home accessibility modifications.

During May 2025, members of the Housing Needs Assessment Steering Committee and representatives from the STCRPDB conducted a windshield survey to evaluate the exterior condition of all residential structures in the Town. The windshield survey evaluated 2,314 residential structures, including those in the Village of Riverside and the Village of South Corning. There were a further 121 structures in the Town that could not be rated as they were not visible from public property that were excluded from the windshield survey analysis. Of the 2,314 houses surveyed, approximately 20.6% were rated as excellent, 43.1% were rated as good, 26.1% were rated as average, 8.7% were rated as poor, and 1.5% were rated as deteriorated. Most structures evaluated were either stick-built or modular at 96.5% versus only 3.6% being mobile homes.

The Town of Corning mailed a housing and public sewer survey to all Town residents at the end of April 2025, asking for responses by June 2, 2025. The survey included questions related to housing needs and gathered homeowners' information to create a waiting list of potential applicants for the CDBG Housing Activities application. Although the Town requested survey responses by June 2nd, the Town continued to accept survey responses through Wednesday, July 24th.

The housing needs survey was delivered to approximately 2270 addresses and yielded 455 responses, which is a response rate of 20%. Out of the total, 45% indicated interest in a potential housing rehabilitation program, and 45% indicated interest in public sewer. Nearly all respondents (98%) own their homes. In terms of demographics, respondents stated the following information about their households:

- Approximately 21% of respondents have at least one child aged 0-17 in their household
- Approximately 62% of respondents have at least one person aged 62+ in their household

- Approximately 19% of respondents have at least one person with a disability in their household
- Approximately 16% of respondents have at least one veteran in their household

The most prevalent housing problems reported by respondents relate to the building envelope or energy efficiency needs, such as windows or doors (42%); siding, trim, gutters, etc. (42%); roof (35%); heating, insulation, or chimney (32%). One hundred forty-three (143) respondents were both interested in housing rehabilitation assistance and appeared to be income eligible. Two hundred and fifteen (215) respondents were interested in public sewer service.

With the information gathered in this assessment, the Town intends to pursue the following goals:

1. Community Development Block Grant(s) for Housing Activities funding. The Town of Corning applied in September 2025 for an implementation grant and plans to apply again in 2026 should the grant not be awarded. The Steering Committee hopes the grant will be awarded and that implementation will provide residents with effective assistance with their housing needs.
2. Provide information to residents about existing housing assistance programs, such as the Energy Savings and Weatherization program offered by ProAction of Steuben and Yates and programs offered through Arbor Housing & Development and Bishop Sheen Ecumenical Housing Foundation.
3. Investigate funding sources to assist homeowners with water issues, as evidenced by the survey and committee member statements.
4. Complete the requirements to become a New York State Pro-Housing Community
5. Review local regulations relating to housing and property maintenance to determine whether the rights and responsibilities of residents are adequately addressed.

Introduction and Project Summary

In 2024, Southern Tier Central Regional Planning and Development Board (STCRPDB) partnered with the Town of Corning to submit a community planning grant application to the New York State Office of Community Renewal. In November 2024, the Town of Corning was awarded \$47,500 in Community Development Block Grant (CDBG) funds to develop a housing needs assessment for the Town. STCRPDB was named as a subrecipient of the grant to assist the Town with implementing the project.

A *housing needs assessment* (HNA) helps a municipality understand current and future housing needs within its community. By analyzing data on demographics, income levels, housing supply, and market trends, an HNA identifies gaps in housing affordability, availability, and suitability. This information supports evidence-based decision-making, guiding local policies, land-use planning, and investment strategies to ensure the community's housing stock meets the needs of all residents. The HNA formulates recommendations for policies and actions to improve housing within the Town and provides the basis for the Town to apply for a future grant to receive funds to assist low-to-moderate income homeowners in the Town with housing rehabilitation, septic and well replacement, and/or mobile home accessibility modifications.

The Town of Corning created a steering committee to guide the development of the assessment. This committee is comprised of two Town Council members, the Planning Board Chair, the Code Enforcement Officer, and the Building & Grounds/Water Department Superintendent. The Steering Committee met monthly between March and October 2025.

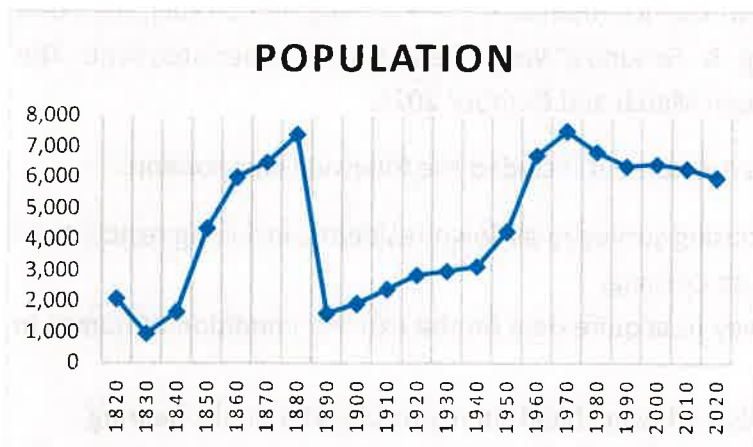

The development of the Housing Needs Assessment included the following components:

- Creation and distribution of a housing survey to all Town residents, including residents of the Villages of Riverside and South Corning.
- Completion of a windshield survey to acquire data on the exterior condition of homes in the Town.
- Public presentation of community and windshield survey results at a public hearing.
- Development of goals and objectives for the Town moving forward related to housing needs.
- Development of a list of potential applicants for a future CDBG-funded housing rehabilitation program to be administered by the Town of Corning.

Overview and Statistical Data about the Town of Corning

The Town of Corning is in Steuben County in the Southern Tier Region of New York State. It is bordered by one Chemung County Town, Big Flats (to the east), and the three other Steuben County Towns, Caton (to the south), Erwin (to the west), and Hornby (to the north). The Chemung River flows through the Town, formed just a few miles west by the confluence of the Cohocton and Tioga Rivers. The landscape of the Town is defined by the valleys of the Chemung River and its tributaries, running off the characteristic glacier-carved hills. The Town is well-traveled, as it is bisected by Interstate 86, crossed by New York State Routes 225, 352, and 415, and contains sections of County Roads 34, 40, 41, 44, and 45.

The Town of Corning was established in 1852. It consists of five boroughs, which are East Corning, Corning Manor, Gibson, and the Villages of Riverside and South Corning. Originally, the area was best known for farming because of the rich soil along the river. The Erie feeder canal made Gibson a stop for river travelers and lumbermen. Railroads soon became an important means of transportation, with stations located in what is now known as Gibson and East Corning. Soon, hotels, mills, and blacksmith shops were erected throughout the surrounding area. Today, the Town of Corning is home to many small businesses, a community college, as well as a large residential area (provided by the Town Historian, Susan Edwards).

The Town of Corning at a Glance (From the U.S. Census Bureau)

2020 Population	5,983
2010 Population	6,270
Area	37.3 sq. mi.
Population Density	160 people per sq. mi.
Median Age	43.2

According to the U.S. Decennial Census, the Town of Corning has a population of 5,983, a slight decrease from 6,270 in 2010. As shown on the graph above, the population of the Town has fluctuated, with a steep drop in population between 1880 and 1890, an increase back to over 7,000 in 1970, and a slower decrease since then. The Town has a total area of 37.3 square miles and is home to the 550-acre SUNY Corning Community College campus as well as many local, regional, and small businesses.

Census data also indicates that 59.6% of the population is employed. The most common industries for employment are manufacturing (33.2%), educational services (25.2%), arts, entertainment, recreation, accommodation, and food services (8.2%), retail (8.0%), and professional, scientific, management, administrative, and waste management services (8.0%). The portion of the population that has earned a bachelor's degree or higher level of education is 40.7%, and 75.9% of school-aged children are enrolled in school kindergarten to 12th grade. The median household income is \$87,240.

Subsets of the population include:

- 17.2% of households spend 30% or more on housing costs
- 14.1% disabled
- 6.2% veterans
- 6.6% living at or below the poverty level, 11.5% of which are under the age of 18
- 20.4% under 18 years of age
- 19.1% over the age of 65

The Town has an active and engaged Town Council and Town Supervisor, continually seeking ways to improve the community, including its housing stock. The Town has 2,639 housing units, 92% of which are occupied, according to the 2020 Decennial Census. Owner-occupied housing units account for 59% of all housing units, as opposed to rented housing. The median gross rent is \$1,088, and the median value of owner-occupied housing units is \$175,500. Housing types are approximately 85.6% single-unit, 7.7% multi-unit, and 6.7% mobile homes. Most householders, 94.2%, moved into their units five or more years ago, and 46.7% moved between 2000 and 2017. Most occupied housing, 92.2%, was built before the year 2000, including 20.5% built in 1939 or earlier. The median monthly housing cost is \$1,144. 17.2% of households spend 30% or more of their income on housing costs. The most common heating fuel is utility gas (83.3%).

Housing and the Zoning Ordinance

The Town of Corning encourages multiple types of housing through its zoning ordinance. Residential uses are allowed in the R-1 Rural Residential, R-2 Low Density Residential, R-3 Medium Density Residential, and C Commercial districts. In terms of housing, only mixed-use development and convents/monasteries are allowed in the Commercial District. Single-family residential dwelling units are permitted by right in the R-1, R-2, and R-3 districts, meaning the only permit required from the Town is a building permit. All other types of residential development, such as duplexes and multi-unit dwellings require a conditional use permit issued by the Town Planning Board in addition to a building permit. However, Corning allows duplexes in all residential districts, even the R-1 Rural Residential District. This represents the opportunity for the development of multiple types of housing, both single-family detached and duplex, in every residential district in the Town.

Furthermore, the Town of Corning allows Accessory Dwelling Units (ADUs) in all residential districts as well as the Commercial District. ADUs require a conditional use permit to be issued by the Planning Board in addition to a building permit, but the Town has limited design standards for ADUs. The ability to construct an ADU gives homeowners in the Town the opportunity to gain rental income, provides flexibility in living arrangements if a family member is living on the property such as an older parent, and increases the housing stock.

While there are modifications to the zoning code that could be made to streamline the permitting process for various housing types and increase the variety of housing options available in the Town, the Town Zoning Ordinance already allows for a variety of housing options. If the Town would like to further increase the variety of housing options available to residents and streamline permitting processes for housing, potential modifications to the zoning code include allowing duplexes to be permitted by right (therefore not requiring a conditional use permit to be issued by the Planning Board) and allowing multi-unit residential development in the R-2 zone. The definition of multi-unit residential development could be further defined to ensure development does not occur that does not fit the character of R-2 neighborhoods.

Home Improvements and Tax Assessment

The Town of Corning Steering Committee and public comments throughout the Housing Needs Assessment process included concern for tax assessment increases after home improvements are completed.

To address this concern, Southern Tier Central Regional Planning & Development Board (STCRPDB) staff met with the Town of Corning's Real Property Assessor to determine which housing rehabilitation activities would trigger a re-assessment and which activities were considered routine maintenance. According to the Town's Real Property Assessor, any activity(s) resulting in physical additions to the property (i.e. new structure build, an addition, etc.) could trigger a re-assessment of the property. Activities considered routine maintenance in nature (i.e. new roofing, siding, replacement windows and doors, foundation work for existing structures, etc.) would generally not trigger a re-assessment. However, the Town of Corning's Real Property Assessor further pointed out that in some areas the assessments are already so low that it is possible a new roof, siding, windows, and doors, etc. could trigger a re-assessment. Areas most likely to see these increased re-assessments would be in the Village of Riverside, Village of South Corning, and the Hamlet of Gibson.

Housing Needs and Public Sewer Survey

Housing and Public Sewer Survey

STCRPDB mailed a housing and public sewer survey to all Town residents at the end of April 2025, requesting responses by June 2, 2025. An online option was provided in the mailed survey and on the Town website. The survey included questions about housing needs, as well as program interests and respondent information. Responses will be used to create a waiting list of interested residents for a CDBG Housing Activities grant application. A copy of the housing needs and public sewer survey is included in this assessment as Appendix B.

Approximately 2270 surveys were delivered to Town residents. The Town received 455 responses to Part 1 of the survey, for a response rate of 20%. Though a 20% response rate is excellent for this type of survey, the Steering Committee recognizes that many people remain unrepresented by the survey responses.

Nearly all respondents own their homes, at 98%. In terms of demographics, respondents stated the following information about their households:

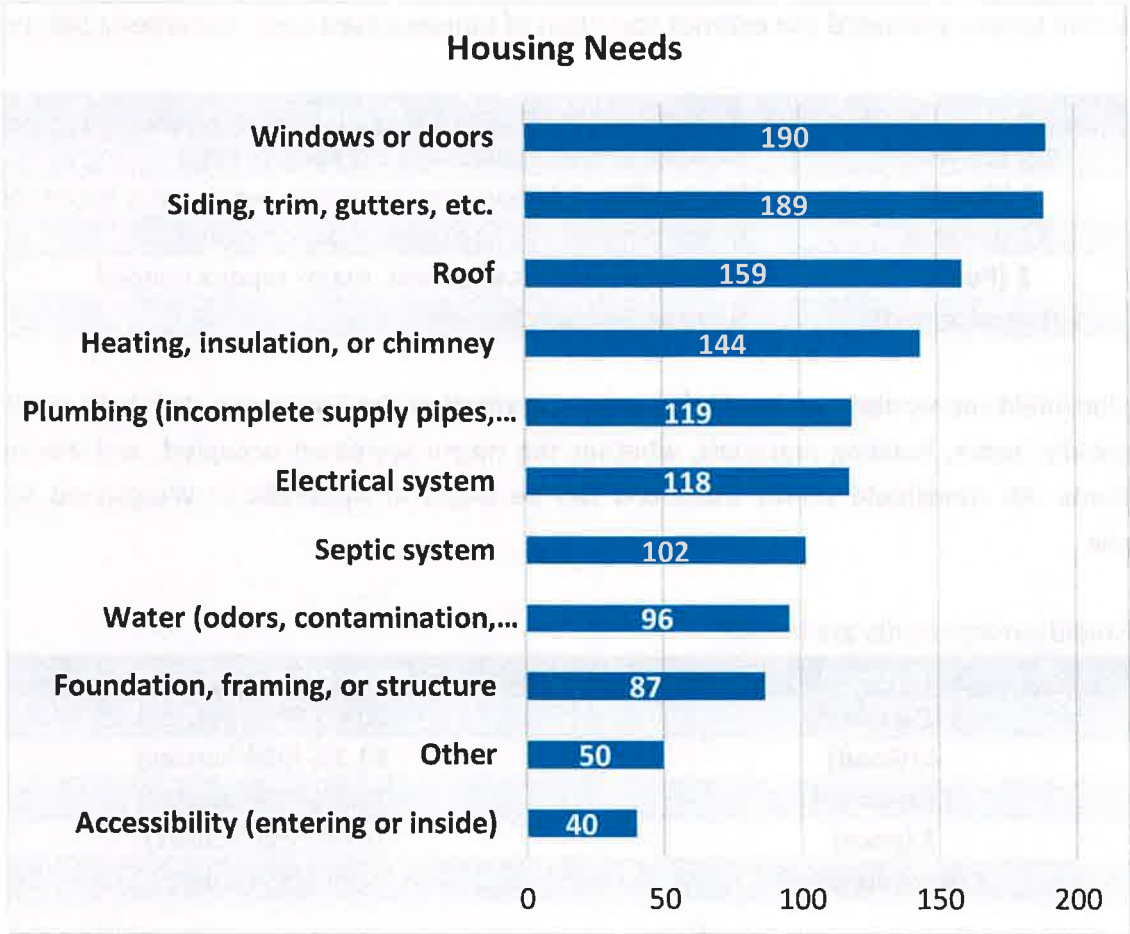

- Approximately 21% of respondents have at least one child aged 0-17 in their household (96 homes)
- Approximately 62% of respondents have at least one person aged 62+ in their household (284 homes)
- Approximately 19% of respondents have at least one person with a disability in their household (88 homes)
- Approximately 16% of respondents have at least one veteran in their household (71 homes)

When asked about the approximate extent of repairs needed, respondents replied:

- Many repairs needed: 9.53% or 41 responses
- Some repairs needed: 45.35% or 195 responses
- No repairs are needed: 45.12% or 194 responses

The most prevalent housing problems reported by respondents relate to the building envelope or energy efficiency needs, such as windows or doors (42%); siding, trim, gutters, etc. (42%); roof (35%); heating, insulation, or chimney (32%). Other problems were reported at the following figures and percentages, as shown in the graph below:

- Approximately 26% of respondents indicated the plumbing (incomplete supply pipes, toilet, bathtub, shower, etc.) in their home is an issue
- Approximately 26% of respondents indicated the electrical system in their home is an issue
- Approximately 22% of respondents indicated the septic system of their home is an issue
- Approximately 21% of respondents indicated water issues (odors, contamination, insufficient supply, etc.) in their home
- Approximately 19% of respondents indicated the foundation, framing, or structure of their home is an issue
- Approximately 9% of respondents indicated accessibility (entering or inside) to their home is an issue

Other needs, noted on 11% of survey responses, included: basement flooding, especially from poor driveway drainage and soil erosion; mold, to the extent of causing holes in the walls; fencing; and subflooring.

A potential housing rehabilitation program is of interest to 62.6% of respondents (285), 143 of whom appear to be income eligible. Public sewer service is of interest to 51% of respondents (231). As 96.5% of residential structures in the Town are either stick-built or modular, it is assumed that most of the income eligible applicants live in a structure type that is eligible for housing rehabilitation activities.

Housing Windshield Survey

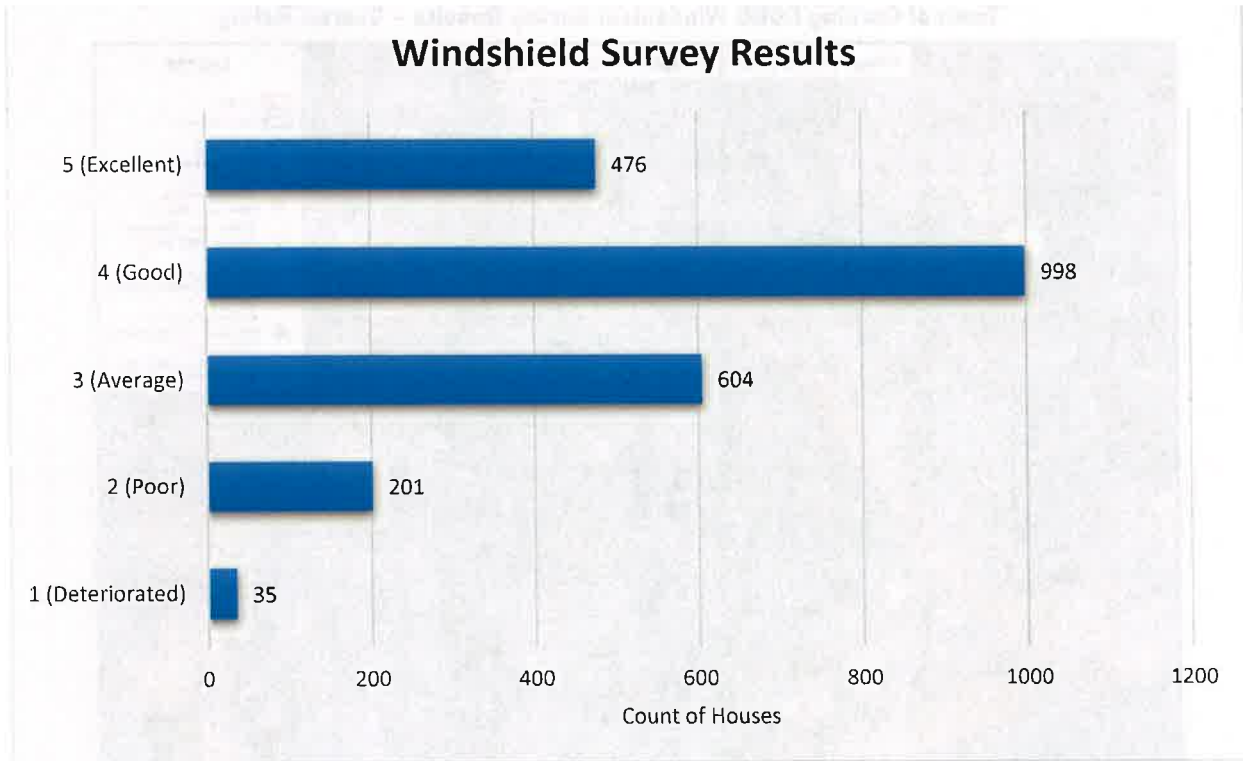

STCRPDB collaborated with Steering Committee members to answer basic questions about the exterior condition of 2,314 housing units in the Town of Corning. The Steering Committee members recognize that this survey provides only a brief snapshot based on a rapid evaluation of housing units and must be considered in conjunction with other decision-making criteria. The windshield survey evaluated the exterior condition of houses based upon the criteria below:

Rating	Criteria
5 (Excellent)	No deficiencies apparent, no repairs needed
4 (Good)	No significant deficiencies apparent, repairs may be needed
3 (Average)	Minor deficiencies apparent, repairs needed
2 (Poor)	Major deficiencies apparent, major repairs needed
1 (Deteriorated)	No rehabilitation feasible

The windshield survey also provided information on whether the house was stick-built, modular, or a mobile home, building materials, whether the house appeared occupied, and any noted comments. All windshield survey questions can be found in Appendix C: Windshield Survey Example.

Windshield survey results are below:

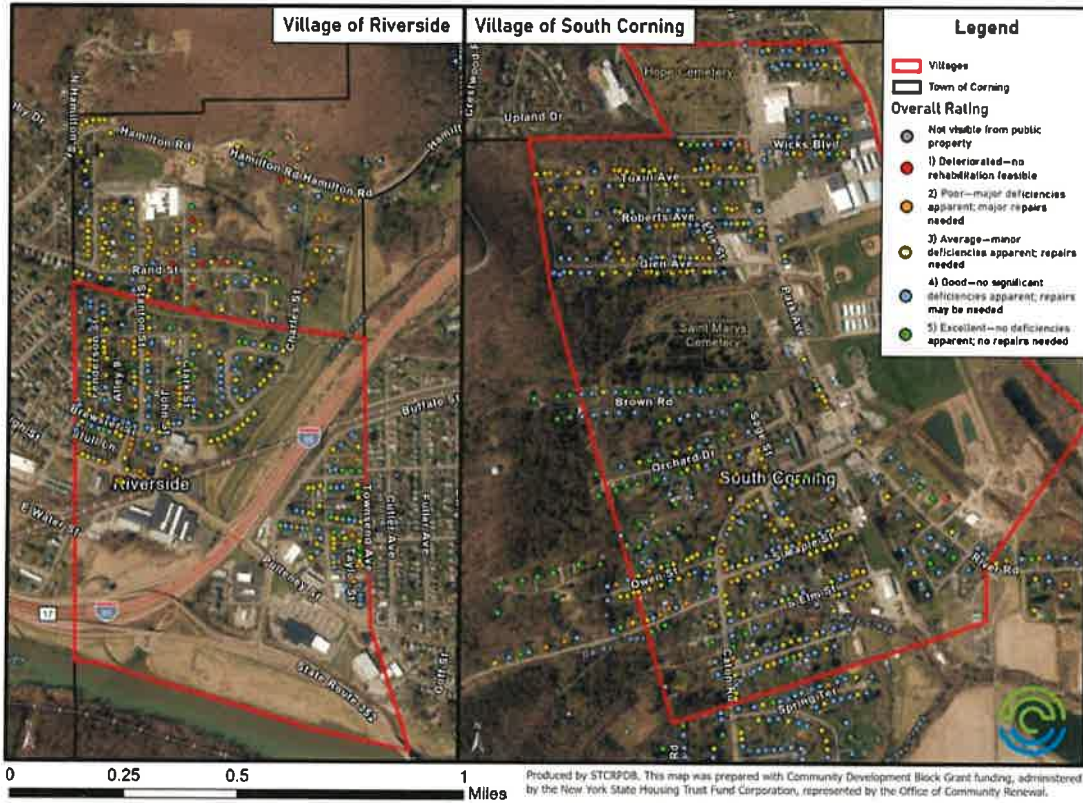

Rating	Percentage and Count
5 (Excellent)	20.6% (476 houses)
4 (Good)	43.1% (998 houses)
3 (Average)	26.1% (604 houses)
2 (Poor)	8.7% (201 houses)
1 (Deteriorated)	1.5% (35 houses)

The table above shows there are 840 residential structures in the Town of Corning that are rated as Average, Poor, or Deteriorated. Therefore, dependent upon the income of the owners, the windshield survey shows approximately 36% of the residential structures in the Town of Corning require some form of rehabilitation. The number of residential structures in the Town of Corning requiring rehabilitation is likely higher than that represented in the windshield survey as the windshield survey is subjective, all areas of the house may not be able to be seen from the road, and there may be issues on the interior of the house that would not be identified in by the windshield survey.

The following maps illustrate the windshield survey results for the Villages of Riverside and South Corning, along with the hamlets of Gibson, Corning Manor, and East Corning.

Town of Corning CDBG Windshield Survey Results - Overall Rating

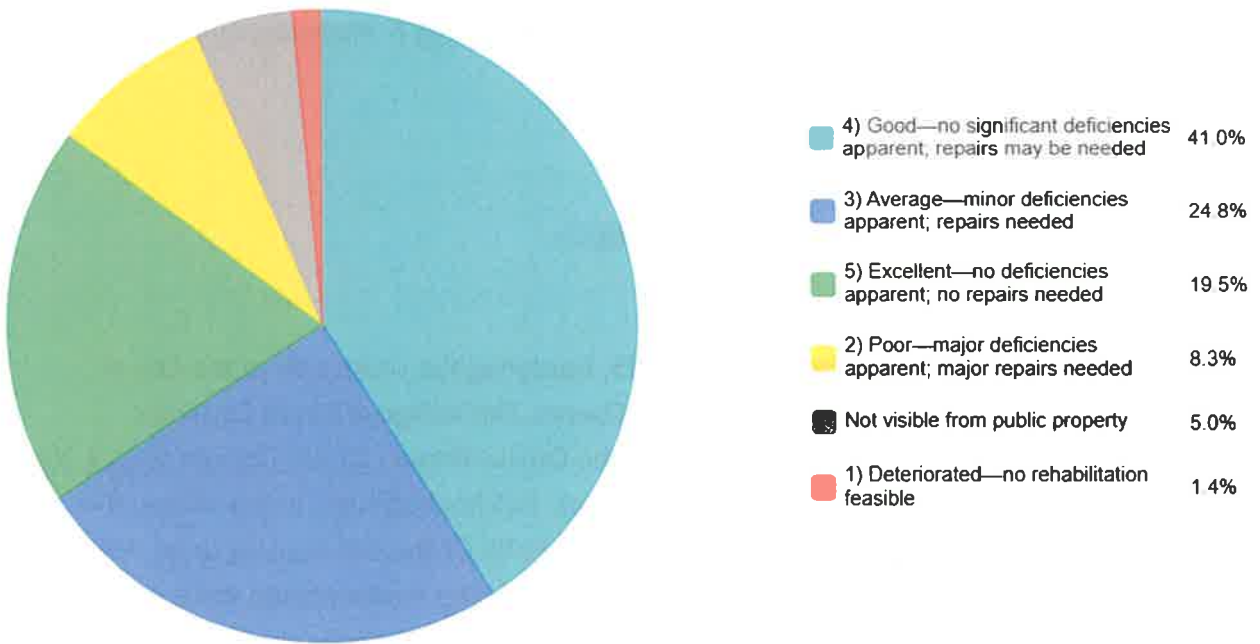

Town of Corning CDBG Housing Eligible Addresses for Selected Areas as of 8/27/25

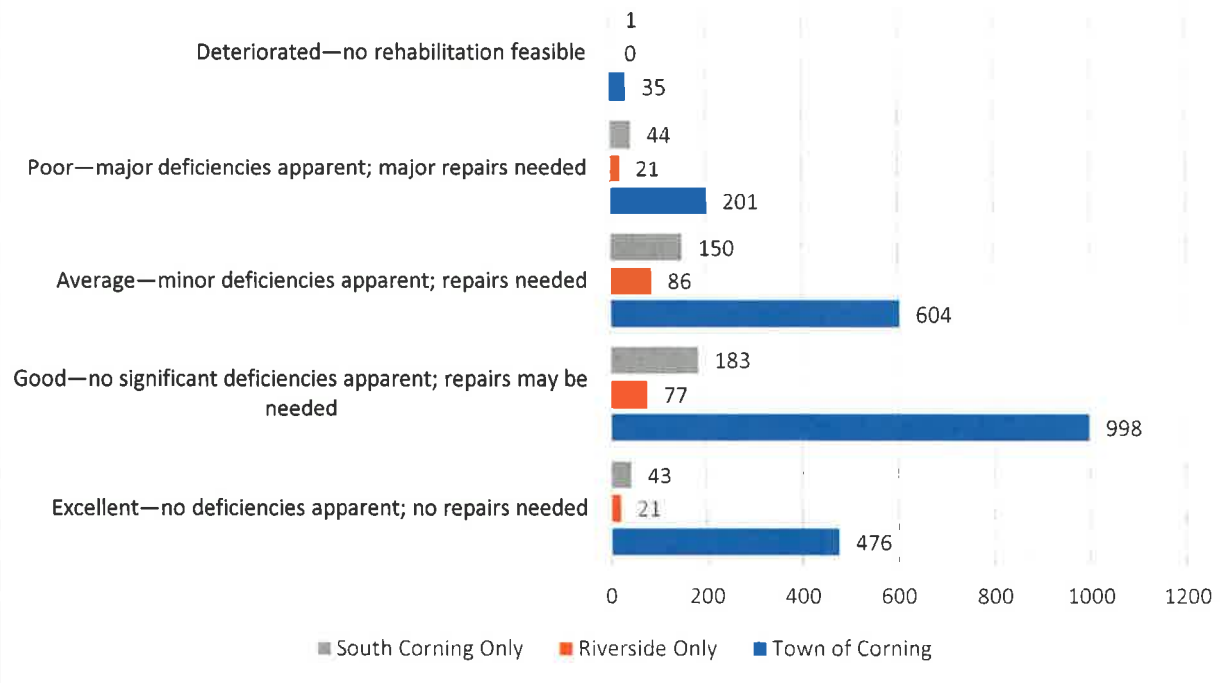

Produced by STCRPOB. This map was prepared with Community Development Block Grant funding, administered by the New York State Housing Trust Fund Corporation, represented by the Office of Community Renewal.

Analysis of Sub-Areas of the Town of Corning

The Town of Corning is comprised of two villages (South Corning & Riverside) and three hamlets (Gibson, Corning Manor, and East Corning).

Villages

South Corning

The Village of South Corning is located on NY-225, bordering the south side of the City of Corning, within the Town of Corning in Steuben County. The Village of South Corning's population is approximately 1,100. According to the Census Bureau [[South Corning village, New York - Census Bureau Profile](#)], there are approximately 545 housing units in the village, the majority of the housing units (71%) were built before 1970. Of the 545 housing units, 493 are occupied (74% owner-occupied and 26% renter-occupied). The median home value of owner-occupied units is \$126,500. The median income is \$59,125, unemployment rate is 4.5%, and poverty is approximately 11.8%.

Riverside

The Village of Riverside is located on NY-415, bordering the west side of the City of Corning, within the Town of Corning in Steuben County. Riverside's population of approximately 591. According to DATAUSA, there are 234 households in the Village of Riverside [<https://datausa.io/profile/geo/riverside-steuben-county-ny/>]. The median property value in Riverside is \$113,800 and the home-ownership rate is 92.3%. The median household income is \$76,071 with 14.2% of the population is determined to live below the poverty line.

Hamlets

Due to the nature of hamlets being small settlements, often only a handful of homes, collecting demographic information is challenging. All three hamlets in this section; Gibson, Corning Manor, and East Corning have access to public water and natural gas.

Gibson

Gibson is a small hamlet within the Town of Corning, on the north bank of the Chemung River, and east side of the City of Corning. Gibson is known for its connections to farming, the

Chemung Canal, and early railroads. Many river travelers and lumbermen passing through and to the area would stop in Gibson on their journey. Gibson was the site of the Guard Lock Dam Log Chute. The log chute allowed rafts of lumber to bypass the dam on their way to the sawmills. The Guard Lock, also located at Gibson, allowed water to flow from the Chemung River into the feeder canal for the Erie Canal. Today, with a population of only 600 residents, only the railroad, streets and homes remain in Gibson. With the development of the railroad, aging wooden locks, and popularity of the automobiles, Gibson's downtown and economy suffered. The hamlet suffered a greater loss, 1995, with the completion of the I-86 bypass around Corning. The bypass was the final segment of the Southern Tier Expressway.

Corning Manor

Corning Manor is another small hamlet within the Town of Corning. Corning Manor is located southeast of the City of Corning, nestled between Gibson and East Corning. Corning Manor is mostly comprised of three streets: Fairway Road, Spaulding Drive, and Green Parkway. Corning Manor was initially developed between 1958-1962, when a developer built roughly 100 cookie cutter houses in the hamlets of Corning Manor and Beaver Valley (Town of Catlin). There are few businesses in the Corning Manor, the hamlet is predominately gravel quarries and the Corning Country Club. The Corning Country Club, from 1979 – 2009, was part of the LPGA Tour.

East Corning

East Corning is located east of Corning Manor along NY-352 (formerly State Route 17) and was settled, primarily as farmland and a transportation hub along the Chemung River and the Erie feeder canal. East Corning also was home to a railroad station. East Corning sprang up because of State Route 17. When the I-86 bypass was opened, unlike Gibson, East Corning continued to grow. Today, there are many businesses in East Corning, most recently Guthrie Corning Hospital.

Review of Existing Housing Assistance Resources

To efficiently address the needs identified in the surveys, a review of existing programs and resources is necessary.

Bishop Sheen Ecumenical Housing Foundation, Inc. helps families, seniors, veterans, and persons living with disabilities with home repairs. Home Repair grants are subject to family size and household income guidelines as well as availability of funds. For county-specific information, please contact Sheen Housing at (585) 657-4114, or Email: ApplicationIntake@sheenhousing.org, website: www.sheenhousing.org

Habitat for Humanity (Steuben County) builds and rehabilitates homes through two programs, one for homebuyers and the other for critical repairs homeowners need to address immediate safety, security, and habitability. For more information, please visit: <https://www.habitatcorning.org/apply>

Arbor Housing & Development offers homebuyer education, homeownership and financial counseling programs, and owner-occupied residential housing rehabilitation. Eligible applicants must have owned and occupied their home for at least 12 months, have homeowners' insurance, and meet income and certain other criteria. For more information, call 607-654-7487 to speak with one of our housing advisors or email info@arbordevelopment.org

AIM Independent Living Center cultivates accessible communities by advocating for change, building partnerships, and promoting individual choice. Anyone living with disabilities and struggling with housing can benefit by having a conversation with AIM staff: (607) 962-8225, locations: <https://aimcil.com/office-locations/>

Cornell Cooperative Extension

The Home Energy Assistance Program helps eligible New Yorkers heat and cool their homes. For more information visit: <https://otda.ny.gov/programs/heap/> or reach out to Steuben County Office of the Aging, Corning office: (607) 936-7425

2-1-1 Helpline is a service that helps connect people with the resources they need. Calls are connected with a person, not an automated system. More information at: <https://211helpline.org/> or by dialing 211, (800) 346-2211, or by texting your zip code to 898-211.

Town of Corning's Housing Focus

In combining data from both the community and windshield surveys, there exists a large overall number of homes and residents in need of housing rehabilitation-related projects in the Town of Corning. As there are a large number of homes in need of rehabilitation-related work in the Town of Corning, it is recommended that the Town approach the solution through a system of prioritization and phases.

To assist with prioritization, the focus will be on the Town-only owner-occupied, single dwelling units. Focusing on the Town-only, provides the opportunity for the Villages of Riverside and South Corning to pursue their own Community Development Block Grant(s) for Housing Activities. This approach could result in three rehabilitation housing programs being implemented annually. Town of Corning will provide necessary data and information gathered from the Housing Needs Assessment to assist both Villages with their own applications.

Additionally, within the Town-only, the cluster of homes in need of rehabilitation in both the Hamlet of Gibson and Hamlet of South Corning, make for prime locations to focus on.

To further prioritize, the steering committee determined to focus first on roofs, judgements of imminent danger, and code violations. By focusing on roofs first, while addressing required violations, ensures the structural integrity and further damage control of the home.

Goals and Future Actions

This housing needs assessment has identified issues and potential areas to improve in the future, per the following housing goals:

1. Offer a program for owners of single-unit residential properties to apply to the Town for rehabilitation assistance. The Town of Corning applied in September 2025 for an implementation grant from the Community Development Block Grant(s) for Housing Activities and plans to apply again in 2026 should the grant not be awarded. The Steering Committee hopes the grant will be awarded and that implementation will provide residents with effective assistance with their housing needs.
2. Provide information to residents about existing housing assistance programs, such as the Energy Savings and Weatherization program offered by ProAction of Steuben and Yates and programs offered through Arbor Housing & Development and Bishop Sheen Ecumenical Housing Foundation.
3. Complete the requirements to become a New York State Pro-Housing Community
4. Review local regulations relating to housing and property maintenance to determine whether the rights and responsibilities of residents are adequately addressed.

Housing and Public Sewer Survey Example

TOWN OF CORNING HOUSING AND PUBLIC SEWER SURVEY

Hello Corning Residents! The Town of Corning is conducting a community survey as part of the Town’s Community Development Block Grant-funded Housing Needs Assessment project. This survey will provide information to the Town about housing needs as well as assist the Town in pursuing a future Community Development Block Grant to run a housing rehabilitation program in the Town of Corning. Additionally, the Town of Corning is currently exploring avenues for public sewer in various areas of the Town and is looking to compile information about those interested in public sewer for potential future grant applications. This survey should take approximately 10 minutes to complete.

Surveys should be returned by June 2, 2025. You may return your paper survey via the self-addressed stamped envelope provided, or drop it off at Town Hall (25 South Elm St. Corning, NY 14830). A link to an electronic form of the survey can be found on the Town website (<https://townofcorningny.org/>) or by scanning the QR Code to the right. Please only fill out the survey once, either in paper or electronic format. Please contact Hannah Wascheyzn at Southern Tier Central Regional Planning & Development Board (607-962-5092 ext. 203) with any questions about the survey.

PART 1 – HOUSING NEEDS

The Town of Corning is exploring opportunities to assist homeowners with repair and rehabilitation of their homes. As part of this effort, Corning is gathering data on the current state of housing within the Town. Your feedback and information provided in this section are appreciated and vital to this effort.

1. Which condition best describes the house that you live in? Please check one.

No repairs needed – to the roof, foundation, wiring, plumbing, etc.	Some repairs needed – has old roof, poor wiring, no insulation, etc.	Many repairs needed – roof leaks, poor or no foundation, dangerous wiring, needs siding, etc.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

2. Do you have, or have you had, issues with any of the following? Please check all that apply.

	Yes	No
Foundation, framing, or structure	<input type="checkbox"/>	<input type="checkbox"/>
Plumbing (incomplete supply pipes, toilet, bathtub or shower)	<input type="checkbox"/>	<input type="checkbox"/>
Septic system	<input type="checkbox"/>	<input type="checkbox"/>
Electrical system	<input type="checkbox"/>	<input type="checkbox"/>
Water (odors, contamination, insufficient supply, etc.)	<input type="checkbox"/>	<input type="checkbox"/>
Heating, insulation, or chimney	<input type="checkbox"/>	<input type="checkbox"/>
Accessibility (entering or inside)	<input type="checkbox"/>	<input type="checkbox"/>
Roof	<input type="checkbox"/>	<input type="checkbox"/>
Windows or doors	<input type="checkbox"/>	<input type="checkbox"/>
Siding, trim, or gutters	<input type="checkbox"/>	<input type="checkbox"/>
Other (write-in):	<input type="checkbox"/>	<input type="checkbox"/>

3. Please complete the following:

Number of children ages 0-17 in home	
Number of persons aged 62+ in home	
Number of persons with a disability in home	
Number of veterans in home	

Do you or your family own or rent your home? (check one)	Own	Rent	Other
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

PART 2 – PROGRAM INTERESTS AND INFORMATION

As stated above, the Town of Corning is currently exploring opportunities to assist homeowners with repair and rehabilitation of their homes as well as potential for public sewer in various areas. In order for the Town to develop and receive funding for a program or service, it must prove there are enough residents who are potentially interested, which is the purpose of the questions below. Please note that indicating interest does NOT require—nor does it guarantee—participation in a future program or service.

4. Are you interested in either of the following programs? Please check all that apply.

	YES	NO
A. If the Town receives funding for housing rehabilitation and you are eligible, would you be interested in potential assistance?		
B. Would you be interested in having public sewer serve your home?		

**IF YOU ANSWERED YES TO QUESTION 4 A OR B,
PLEASE COMPLETE QUESTION 5 AND PROVIDE YOUR ADDRESS AND A SIGNATURE BELOW**

5. Please circle the number of people (including children) living in your household in the left column. Then, to the right on the same line, circle your total household income from all sources except student loans or loans from the G.I. bill.

(START HERE) ↓ If the Number of People in Your Household Is	Circle if Your Total Family Income is BELOW or EQUAL TO	Circle if Total Family Income is BETWEEN or EQUAL TO	Circle if Total Family Income is EQUAL TO or ABOVE
1	\$32,000	\$32,001 and \$51,150	\$51,151
2	\$36,550	\$36,551 and \$58,450	\$58,451
3	\$41,100	\$41,101 and \$65,750	\$65,751
4	\$45,650	\$45,651 and \$73,050	\$73,051
5	\$49,350	\$49,351 and \$78,900	\$78,901
6	\$53,000	\$53,001 and \$84,750	\$84,751
7	\$56,650	\$56,651 and \$90,600	\$90,601
8	\$60,300	\$60,301 and \$96,450	\$96,451

Your Name _____ Phone: _____

Street Address: _____

Email Address: _____

I understand that this information may be used by the Town of Corning and Southern Tier Central Regional Planning & Development Board to apply for grant funding as needed. I certify that the information contained in this survey is true and accurate to the best of my knowledge.

Your Signature: _____

Date: _____

Thank you for your time!

Appendix C

Windshield Survey Example

Description

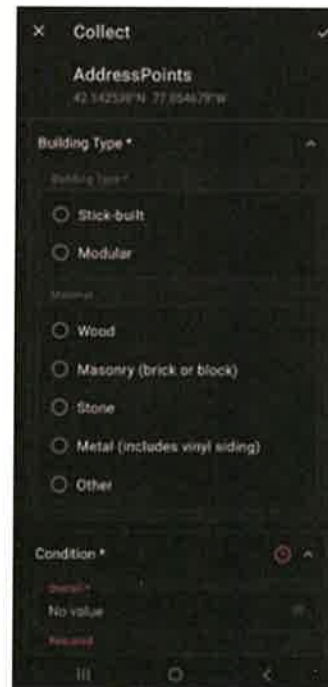

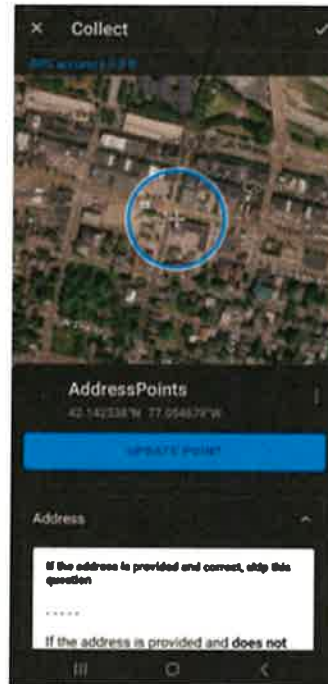

A Town staff/official will transport one or two STC staff on trips past all residential addresses in the Town and Villages therein. They will work together to answer the questions supplied below using ArcGIS Field Maps until all addresses have been surveyed.

Purpose

Establish condition of residential properties based on exterior appearances (visible from road)

Questions (*required)

1. Confirm pre-entered or add address
2. Building Type (stick-built / modular)*
3. Material (wood, masonry, stone, metal, other)
4. Condition
 - a. Overall (1-5 criteria on next page)
 - b. If different from overall:
 - i. Foundation (1-5)
 - ii. Roof (1-5)
 - iii. Siding (1-5)
 - iv. Doors/windows (1-5)
 - v. Yard (1-5)
 - vi. Chimney (1-5)
 - vii. Garage (1-5)
 - viii. Other (1-5)
 - c. Comments
5. Improvements
 - a. Recent (Y/N)
 - b. In-Progress (Y/N)
6. Building Occupancy Status (Fully, partially, vacant, or boarded)

Criteria

- 5) Excellent—no deficiencies apparent; no repairs needed
- 4) Good—no significant deficiencies apparent; repairs may be needed
- 3) Average—minor deficiencies apparent; repairs needed
- 2) Poor—major deficiencies apparent; major repairs needed
- 1) Deteriorated—no rehabilitation feasible

Additional Logistical Details

All addresses have been pre-entered into Field Maps and additional addresses may be entered if there is any confusion in the field. The map has been configured to function without internet access in the event there are locations with limited cellular service. Trips and routes will depend on progress and driver discretion.

Schedule

Based on past Windshield Surveys, STC anticipates at least 10 sessions will be necessary and would like to schedule at least that many trips to be revised by email and phone communication as the survey is conducted.

Appendix D

Windshield Survey Results by Address

Address Label	Building Type	Overall	Occupancy Status	Siding Material 1	Siding Material 2	Recent Improve?	Comments
